June 2022 Newsletter

Dear Thirsty 13th members, relatives, and friends,

On April 25, the daughter, Kathy, whom I found in February, of radio operator McDonough, emailed me "My sister had a few other items. You may have them already, but I thought I'd check." Among these was a never-before-seen roster from September 10, 1945. Another she wrote of "was a brown notebook where my dad had a lot of notes including details on missions and a bunch of addresses." She was great to mail me the originals for me to scan and return, and these added more helpful details to the squadron history.

On May 5, I received an email from Matt Rhodes, not related to the squadron. He enjoys reading history, bought the book December 2, 2015, and receives the newsletter. In the May letter, on page D1, I listed 113 men for whom I had not found award order numbers. Incredibly, Matt provided an internet site at which to find all of these award order numbers.

On June 8, I visited the daughter-in-law of Willard Evans, near Albany, NY, and photographed 40 letters with 464 pages. I photographed his letters in August 2017 but missed his first two months and last two months and had tried in 2019 and February to arrange a return, but was unable, and so it was great to see the rest of his letters, which provided more details.

The air medal awards start in 1943, and so are presented first, then Evans, then McDonough.

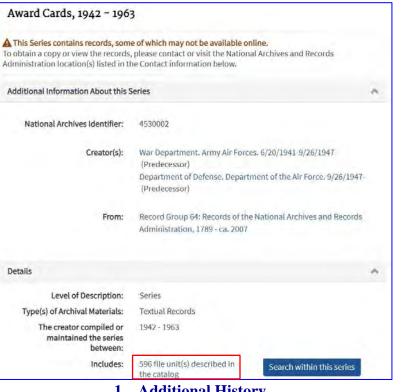

With best wishes,

Seth P. Washburne, Squadron Historian June 19, 2022, Father's Day

This is the newsletter for the U.S. Army Air Corps 13th Troop Carrier Squadron, 1940-1946, nicknamed "The Thirsty 13th."
This is prepared by Seth P. Washburne, the son of John C. Washburne, navigator 11/42-7/43. Please direct any comments to him at (212) 289-1506, sethpw1@gmail.com, or 5200 Meadowcreek Drive, Apt. 2060, Dallas, TX 75248. Page numbers referred to are in the book "The Thirsty 13th" unless otherwise stated.
All contents are copyrighted and the property of the originator. No items may be reproduced without permission. To enlarge the PDF to fill the width of your screen, press the CTRL key and "+" at the same time. Please click the hand symbol to make it easier to scroll down.

Air Force Award Cards [Air Medal]: Aabye, Thomas - Adams, Frank

1. Additional History

a. 1942-45: Award Cards with Order Numbers

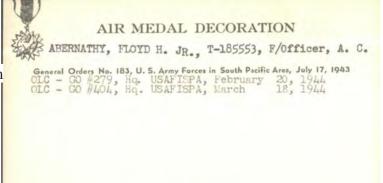

Matt Rhodes emailed me May 5 how to find award order numbers. He wrote to first go to catalog.archives.gov. Type in the search box "award cards" then click on the first of two results, for "1942 to 1963." This goes to the page above left. At the bottom, it notes this includes 596 files. Each has about 1,150 cards. One then clicks on the blue box "Search within this series."

The files are in the order: Distinguished Flying Cross, Air Medal, Commendation Medal, Bronze Star, Distinguished Service Cross, Distinguished Service Medal, Legion of Merit, Medal of Honor, Purple Heart, Soldier's Medal, Silver Star, and Unit Awards. If a man earned two types of medals, one must find two cards.

For the Air Medal for Abernathy, one clicks on the file outlined in red top right for the last name range "Aabye, Thomas - Adams, Frank." The first page appears as shown above right, for "Aabye, Thomas P." This is card 1 of 1,120 as outlined in red. One then types numbers in the box next to "Image" to reach the one desired. I am happy to email anyone their relative's card.

Image 332 in the above name-range file was Abernathy's card, at right. This is titled "Air Medal Decoration." The first line has his Air Medal order number, issuer, and date, as General Order 183, from the USAFISPA, on 7/17/43. The next two lines provide the order numbers for his oak leaf clusters. being GO #279 on 2/20/44, and GO 404 on 3/18/44.

2

First Search – For Missing Order Numbers

The squadron yearbook "*Two Years c/o Postmaster*" listed men who received the Distinguished Flying Cross (DFC) and Air Medal, and had a parenthetical, e.g., "(1)", after some names to indicate how many oak leaf clusters (OLCs) to these were earned. I had scans of orders for many of these awards, but 113 men, listed on the May newsletter's Exhibit D1, were in *Two Years* with an award or OLC but I did not know the award order number. I first searched the National Archives website on these 113 men. This search required 10 hours on May 5, from 3 p.m. until 1 a.m., and 9 hours May 6, from 10 a.m. until 7 p.m., for our 25 men missing DFC awards, and 111 missing Air Medal and OLC awards, for a total 136 searches, about 5 minutes each. The result is in Exhibit A, similar to May's D1, listing the order numbers and dates found.

The squadron yearbook *Two Years* lists seven men, in Exhibit A, with awards in red, as having the Air Medal, but they do not have award cards. I met Gilbert, Harp, and Goodwin, and spoke to Lippitt many times, and none of them or their relatives had separation records which would have clarified this. I have to decide whether in my list to take away their Air Medals, and decided I should, based on their not being on orders which listed their peers, and not having an award card. It also seemed reasonable based on the following:

- 1942-1943 navigator Gilbert earned the DFC for his first 200 flight hours to Guadalcanal, but might not have had another 100 hours combat time for an Air Medal. On the book's page 322, he had 325 hours his first 6 months, 11th of the 12 still-living original navigators, vs. Meade had 548 hours. Original navigator Hammett also had the DFC and no AM but left 8/29/43 vs. Gilbert 10/25/43. Mogush had the AM but had 446 first-6-month hours.
- 1943 navigator Lippitt earned the DFC, but also an OLC to it, perhaps instead of the AM, those equal to 400 hours total combat time. He was with us 2/6/43-12/10/43.
- 1945 navigator Sennholtz was with us 12/11/44-9/22/45 and flew about 30 missions, but combat time was harder to get in 1945. Navigator Blakeney joined the same day as Sennholtz, and left the same day, and also does not have an Air Medal award card.
- 1942 airplane mechanics Goodwin and Harp joined in the US and stayed until 1945 but worked mostly on the line vs. flying the missions.
- 1942 radio operator Stratton flew on our original C-47s to the South Pacific, but was a corporal, vs. all 12 other radio operators were S/Sgts, so may not have logged much time to Guadalcanal in 1942. He died January 13, 1943, in our first fatal plane crash.
- 1942 radio operator Saylor was one of the 13 who flew on our C-47s to the South Pacific. He earned the DFC. He returned to the US 7/3/43.

There are 19 men whose award cards list one less oak leaf cluster than in *Two Years*, and again I assume the award cards are correct. Dalmann, Reddick and Peters had an additional Air

Medal OLC not listed in *Two Years*. Peters' card, at right lists an 8th OLC, GO 968, but has an asterisk next to it, "MIA," so I did not count that one. *Two Years* lists him as having seven.

This search added 55 award order numbers. We now have the order <u>numbers</u> for all but one award. The award orders themselves are still missing.

AIR MEDAL DECORATION PETERS, KARL E., 0-665605, 2nd Lt., Air Corps G. O. No. 491, Hers. U. S. Army Forces in South Pacific Ares, April 6, 1944 OLC - GO #509, Ho. Men Awardeded Air Medal Not Previously Listed

Second Search – of Men with No Awards in Two Years

There were 222 air crew members who did not have an award listed in *Two Years*, and I next wondered if some of them, too, earned the Air Medal. I skipped 31 men who were with us less than 45 days, and 18 men who joined us after May 15, 1945. I searched the archives website May 19 from 8 p.m. until 11 p.m., and May 20 from 1 p.m. until 6 p.m., a total 9 hours more, on these 173 more air crew member names, about 3.5 minutes per person.

The results of this second search are above right. CH Thompson, who died in our last crash, on Biak, earned the Air Medal. Seven more of our 1945 pilots were awarded the AM in 1946 (listed above right by the award order's date). Two more navigators earned the Air Medal.

I found Air Medal award cards on the archives website for 14 more of our men not in *Two Years*, but estimated they earned this before or after the 13th TCS: Burder (p), Cloud (ro), Cook (ro), Eggers (m), Foss (m), Galant (ro), Hammett (n), EB Johnston (ro), Lowell (p), DW Rice (p), Viktorchik (m), Warner (n), Weston (flight surgeon), and Zerovich (m).

Third Search - of Men for Whom I had their Award Order Number

Lastly, I searched on the 121 names in *Two Years* with the Air Medal, for whom I was not missing an order, to see if they earned another air medal. On 5/31, I spent from 8 a.m. to 10 a.m., 1:30 p.m. to 6 p.m., and 8:30 until midnight, another 10 hours, again about 5 minutes per person. Five men, listed in *Two Years* as being awarded the Air Medal, and for whom I have the order number, or the award order itself, do not have award cards: FJW Barry, Blakeney, LaLonde, Laming, and Whitaker. This means the card file is not complete.

Updated Award List, Finding the Actual Orders

The May newsletter's Exhibits B and C are attached again, including the 55 missing award order numbers. Regarding the orders themselves, I have files from Maxwell AFB of all the General Orders they have, and they are missing all of these new numbers. Exhibit D shows a page from Maxwell listing four of our missing orders. Hopefully, all will be found someday.

Changes to Ceremonies

For the newly-found 1943-1944 orders, those in blue in Exhibit C, such as Allen, Miller, Dalmann, and Hetzler, received these awards on dates already stated. Air Medal OLC award orders to Houpt 5/15/44, and Houpt, Rode, and Skeens on July 28-29, 1944, and Peters' DFC order 7/30/44, all have undetermined ceremony dates, perhaps because the squadron at that time had an advanced echelon at Guadalcanal, and then at Los Negros. For the newly-found 1945 orders, the 3/20-21/45 orders awarded OLCs to Drago, PR Bowman and Mucci, and these were present at the 3/24/45 ceremony, so probably received the additional OLCs at the same event.

The May newsletter, page 11, listed men due to receive awards at the 21st award ceremony, July 5, 1945, and was missing 9 men for the Air Medal, and 2 for OLCs. Based on the newly-found order numbers and dates, 4 of these 9 more for the air medal were Bowen, DeClerck, Driedger, and Stoltzmann. // The award order analysis is now mostly complete. //

b. 1944-45: Additional Letters by Willard A. Evans, Supply Clerk, 8/5/44-5/1/45

In August 2017 I photographed Evans' letters from October 1944 to March 1945 and skipped others because I did not know his dates in the squadron. I learned these in 2019, and so returned to Athens, NY, June 9, and photographed his Aug-Sep 44 and April-May 1945 letters.

At Our New Hebrides Camp

8/2/44 – "We had a beautiful week of weather. I went swimming nearly every day on one of the most beautiful beaches I've ever seen [estimated as Palkulo Bay].

"Personally, I don't like swimming in salt water nearly as well as in fresh water. Somehow it isn't as refreshing and doesn't leave you with that pleasant "after-swim" feeling you get from a swim in fresh water. But on the other hand, it is neat sport to swim thru the waves.

8/6/44 – "Up to now I haven't been allowed to reveal even the hemisphere I'm in. Now I can say that I have been in New Caledonia, but I'm not there now. We took ourselves a little boat ride the other day and wound up here. 'Somewhere in the South Pacific.'

"I can tell you definitely that this place where we are now is still on the O.K. side. It is alleged to have the most habitable climate in the entire South Pacific, and from the weather we've had since I've been here, I believe it. It is a beautiful place – incredibly green and lovely. The natural ground is very luxuriant, but yet it is not thick enough to constitute a jungle.

"This outfit has been here quite a while and they have the camp area very well developed. We live, for example, not in tents, not even in tents with floors, which in New Caledonia were the arms of luxury – rather we live in small wooden barracks – fourteen men to a barrack, which means we have plenty of room to spread around. We have cabinets to put out clothes in, chairs to sit in, tables to write on, and one fellow even has a very sumptuous knee-hole desk, complete with drawers and ink pad. All this stuff is home-made, of course, but it's serviceable, and comfortable. We sleep on cots. Most of the boys have mattresses and pillows which they have bought from a nearby Navy establishment and, believe me, as soon as I get paid, I'm going to plunk it down for a few such items myself.

"We have that luxury of luxuries, electric lights (!) in our barracks, a fine mess hall, and hot water to shower in. One of the fellows in my barracks has a radio, not powerful to get Frisco, Tokyo, or Australia, but there is a local army station which has programs. The food...it is a prominent source of griping among the men, but a GI, especially an overseas GI, must have something to gripe about, and the food he eats is the handiest thing.

"The men here seem to be a good bunch. I like nearly all of them, just a first impression.

"The other big advantage this place has is that there are neither Japs nor mosquitos around. Oh, I guess there is a little malaria in the interior of the islands, but there's none here in camp, that's for sure. And as for our enemy, the Japanese – well they're a long, long ways from here, so for the duration of my stay here I don't want any more uneasy thoughts about me disturbing your pretty head, my dear. I couldn't be safer if I were in the middle of an Iowa cornfield, and I'm incomparably safer than I would be in Chicago. For the present at least, it's my turn to worry about you. You might get run down by a streetcar any morning, or a taxi any night!

"The chief disadvantage here is that there is not even an outpost of civilization anywhere around the premises. In Caledonia there was at least Noumea, but here there is nothing, not even a non-GI crossroads. However, this is a minor complaint. "I still haven't told you the best news: <u>I am no longer a radio mechanic</u>!! Can you imagine it? <u>I'm not a radio mechanic</u>!!! I feel like a man who has just been released from a pillory.

"No indeed, my classification is now that of a classification specialist, which means that I am to work in the squadron orderly room, in the personnel section, yet, of course, this is not all pure gravy – it will be a lot of routine work, but it will be so much better than being a radio mechanic that there's no comparison. I abhorred that radio mechanic racket. Ugh! It nauseates me just to think of it. Tables! Condensers! Frequencies! Resistors! – can you imagine anything so deadeningly dull? I can't!!!

"This morning we [the group at right] were all called in to see the first sergeant who went over our records with us and assigned us to jobs within the squadron. When it came my turn, he got sort of a puzzled look on his face and finally told me to wait until the rest of the men went thru and then come back. I did, and later he and I decided there was no use wasting a good man (I hope) on a radio mechanic job he hated – especially when the orderly room needed help in the personnel section. So, quick as that, I was assigned the orderly room for my work. I don't know how it will work out.

"I am no longer a casual. After three months as an aviation cadet (ugh!), six months in tech school (now wasted as far as the army - or myself - is concerned) and nine months of being pushed from pillar to post throughout casual camps in half the world, I have finally been permanently attached to an outfit. This troop carrier squadron outfit is probably for the duration. The outfit may move around a lot before this is all over, and of course I will go with it. But my outfit at least is permanent, even if my location may not be. My new address is...

8/8/44 – "Having just addressed the envelope into which this will go – that's a bad habit of mine, addressing the envelope first, and then writing the letters. Remember the time I got them mixed, sent the letter intended for you to the folks (and vice versa) and so gave away the fact that I intended to wash out of the cadets at San Antonio? [He may have realized he didn't want to be a pilot after all.]

"Out here there is absolutely nothing for me to spend my money on....

"P.S. Today we were actually issued two new, clean, white sheets. Can you imagine it? Sheets! In this neck of the woods. I haven't had two sheets since Sheppard Field. At San Antonio just one, and none at all at Scott, Kearns, Salt Lake, Jonesboro, or Angel Island. But here, in an alleged combat area, we have two sheets. Furthermore, we have a GI quartermaster operated laundry to clean them, and the rest of our clothes, too. That beats everything.

8/11/44 – "'Oklahoma!' has finally come to the South Pacific. Our local army station has apparently just received a batch of records from the show [it was first recorded in 1943], and the GI operators seem determined to wear them out the first month. Now this is all very well, they are all wonderful songs and when one knows the wonderful settings in which they are sung on the station, they're doubly enjoyable. But that's just the trouble: the happy memories they bring back are just a little too sharp, too poignantly full of nostalgia. I haven't been here very long, yet all these links with civilization and HOME are more painful to me than they are pleasant. Oh well, they say the first six months are the hardest.

"There is a big noise here on the island now, and his name is Bob Hope. Yes, the Great One was here last night, and gave an hour-long show out here at the airfield. Tonight, he is down at the other end of the island performing for the benefit of the navy.

"Hope came in yesterday afternoon. We all knew of course that he was due in sometime during the day, but nobody knew just when. I was sitting at a desk in the orderly room typing when suddenly, somehow, everybody knew Hope was arriving! We all fled the orderly room, jumped into a jeep, and arrived just in time to see the Great One disembark from the plane. With him were Jerry Colona, Francis Langford, Patty Thomas, Buddy Deane, and others. Also on hand was the official greeting committee and the unofficial 'guests' – about a thousand GIs.

"As for Hope + Co., they were definitely unimpressive. Hope looked and acted grumpy and out of sorts, Frances Langford was definitely showing her years, and Patty Thomas looked like she had been out on an all-night jag with someone who had treated her as rough as most of these GI's would like to. But the show was pretty good. Hope was funny as all heck. And at night, by artificial light, Patty and Frances were much restored to their glamorous selves. I never cease to be amazed at the miracles some expertly applied make-up can work with women.

"Hope was a scream, Colona was funny, Miss Langford sings well, and suggestively and is not bad to look at. Patty Thomas danced – she can't dance for sour apples, but nobody cared. She was dressed in as little as the law allows, and she really looked like what Hope introduced her as – "I just want to show you fellows what you're fighting for."

"All in all, it was fun – especially Hope's peculiar off-beat brand of comedy.

"I like the men I work with – especially one fellow whose name is Geier [Sgt. Fred Geier]. He's my immediate boss and a very pleasant chap.

8/24/44 – "I am going to the show tonite. It's "Battle for New Britain." I also went to the show last night. Two nights in a row at the cinema is practically unheard of as far as I'm concerned, but last night it was "Gaslight" with Charles Boyer and Ingrid Bergman.

8/28/44 – "I was out riding in a jeep Saturday morning. We rounded a corner in the road and came into full view of one of the most powerful collections of naval ships ever seen. Four battleships, four heavy cruisers, and several smaller craft – all riding anchor in the harbor. The fellow I was with happened to mention that the <u>U.S.S. Idaho</u> was one of these. 'The <u>Idaho</u>!' I yelled, 'My God! Henry!' [his friend Henry Stills from home].

"As soon as we got back to camp, I got out my little address book, looked up Henry's address, just to be sure. Sure enough, there it was: Ens. C.H. Still, <u>USS Idaho</u>, 40 FPO" etc.

"Right away, I went into action. First, I arranged to take the rest of the day off. Then I shaved, showered, ate early chow, and hitch-hiked my way down to the pier. I waited about a half hour for a boat to take me out to the <u>Idaho</u>. Finally, one came along, and by 1 PM I was walking up the gangplank of the <u>Idaho</u> (big baby, she was, too!). I told the (J.G.) [ensign, junior grade] who seemed to be running the show at that moment what I wanted. He called a messenger and told him to take me to Henry's stateroom in the 'middle' deck.

"We found Henry sitting at his desk, his back to us, and a couple of other junior officers floating around the living room. The messenger said 'A visitor to see you, Mr. Still.' Henry turned around. I said quietly 'Hello, Henry.' He saw me and I thought he was going to go through the floor and out the ceiling, both at the same time. His jaw dropped and he looked like 'My God! Can it be!!' He decided it could – and he and I both went out the roof together. He introduced me to his two friends, who promptly did the courteous thing: they left. "Henry and I sat down to talk the whole thing over until 12:30 that night. Eleven and a half hours of talk – and we didn't either of us get said half the things we wanted to.

"We talked of every topic under the sun. We had some drinks, enough so that early in the evening, just before we ate, I was beginning to feel pretty good. We'd been drinking rum and coke until the rum ran dry. Then we concocted a strange mixture consisting of one part gin and two parts vermouth – which, we discovered, tasted quite reasonably like a Manhattan. Just pleasantly potent, not strong enough to befuddle our brains, but yet with enough such to make us feel warm and fuzzy and to shake off the hard crust of unfeeling which an overseas serviceman has to adapt to keep sane.

"He took me all through his part of the ship and gave me a very thorough explanation of the why's and laws and whatnot of naval strategy. Henry is in charge of the secondary battery of five-inch anti-aircraft guns and has about 135 men under him.

"One more item from our conversation. Henry had spent a week in Sydney, and he was full of feelings about the Australians as a people. He found that they are warm, friendly, a trifle rough, free, vigorous, pioneer spirits. He found a curious amorality in their women. (GI's have found this, too, only they think of it as licentiousness because their petty mind cannot conceive of a different morality from that which they consider normal in their own American women.) An Australian girl will go to bed with you the first time you take her out, and not consider it something unusual at all. There it is just the thing to do, that's all, the normal way of acting – it's the social more, at best, where the American soldier is concerned.

"Finally, at 12:30 A.M. it came time for the last boat ashore, and I had to leave. Next morning the <u>Idaho</u> weighed anchor and set sail for (censored). Well, I regret that I didn't know the <u>Idaho</u> was here earlier than I did – but I'm so pleased to have seen him at all.

8/31/44 – "This is going to be just a shortie squeezed in between a long letter to Charlene Still and the 10 o'clock newscast over AES (AES = American Expeditionary Station – the army's radio for this base, member of the aptly named Mosquito Network) and immediately after said news cast, your South Pacific correspondent is going to toddle off to his GI bed.

"Well, I have had one of my ambitions gratified – I have been in an earthquake! Oh, it wasn't really an earthquake – it was only a tremor really. But nevertheless, the ground did quiver and shake for the space of probably five seconds. It happened yesterday noon and gave us all quite a start, but it was very minor.

"I was in the barracks at the time. The building began to vibrate and to jump up and down ever so slightly. The building rocked slightly – maybe a quarter of an inch, maybe a half inch, but no more, up and down - but the vibration was the most prominent feature."

9/5/44 – "I am now a full-fledged, and duly-initiated Shellback. The initiation ceremonies were not too rigorous – in fact, they consisted mostly of a couple of guys getting everybody else and themselves soaking wet with a huge stream of water from one of the ship's fire hoses. We were too crowded for more strenuous exercises, and nobody seemed to be much interested in the proceedings.

"I have also been initiated into 'The Silent Mysteries of the Far East' and the 'Imperial Domain of the Golden Dragon' – which the same took place upon our crossing of the International Date Line. This time there were no attempts at a ceremony of any kind – we were just given a little blue card which vouched for the fact that we had crossed the 180th meridian.

"We are sixteen hours ahead of Central War Time. 10:30 p.m. (Taps), 6:00 AM (Reveille).

9/11/44 – "I am no longer working in personnel. Nor am I a radio (ugh!) mechanic. I am now working in the squadron intelligence office, and among the duties of the intelligence officer is the job of unit censor. I am clerk, typist, mail orderly, general handyman, and apprentice – mostly apprentice. I like this job very much better than I did that personnel job. The fellows here are a fine bunch – intelligent, humorous, and diversified. The intelligence officer himself, Lt. Yeomans, is O.K. He knows his stuff, is intelligent, and a "good Joe." I like him a lot.

"Heading the rest of the cast is a staff sergeant, Oehm, who is an awfully fine fellow. Two corporals complete the cast of characters. Frank Gordon is big, long, intelligent, humorous, athletic - decidedly a 'man's man.' Marvin Goessl, from Milwaukee, completes the cast, and is really the most interesting of the lot: he is an artist in civilian life.

9/16/44 – "I had thought I might celebrate by going to the show tonite, but it's 'Lost Horizon,' which I've already seen three times and definitely do not care to see again."

9/20/44 – "We are having a little blow of our own over here tonite. From somewhere, and by, I gather, somewhat extra-legal means, the powers that be have acquired a few dozen cases of beer. Tonite at nine there are to be served in the mess hall to all hands, hamburgers, French fried spuds, and beer ("cokes for kids," the announcement says) – to all members of the 13th T.C. Sq."

9/22/44 – "Tonite I saw the movie 'The Hitler Gang.'
10/4/44 – "Last night I saw 'The Eve of St. Mark.'
10/8/44 – "The other night I saw a perfectly delightful movie, 'I Married a Witch.'

10/11/44 – "I must tell you about my pig! Well, he's not really my pig because the only time I see him is at mealtimes, but I've developed a definite affection for the beast, and I feed him so I guess maybe I can claim part ownership at least.

"He's just an ordinary porker; medium-sized, sort of reddish-tan in color. He's small-boned, low-slung, sleek, and fat, not as fast as an Iowa hog perhaps, but still pleasantly plumpish.

"Now my friend the porker also has brains. He has been smart enough to figure out that the mess hall means food for people and maybe for pigs, too.

HALL

"So, here's the way he works it. He takes up a position as in the diagram [at right], between the exit from the mess hall to the garbage can. He just stands there and makes noises to himself and every time a GI comes out of the mess hall, he waves his head to grunt extra loud as much as to say, "Got anything extra in the way of eats today, buddy?" And it's surprising how much food he gets. After all, if you happen to have a scrap or some potatoes or apples (he's wild about apples, I discovered – he nearly ate <u>me</u> up, too, when I gave him some the other day), you might as well give it to the poor starving ping as to throw it in the garbage can.

"The authorities frown on my friend the pig, and every once in a while, the mess sergeant comes out and chases him away. But the moment the sergeant goes back into the mess hall – back comes my mendicant pig.

"There he is at <u>every</u> meal, standing in his appointed place, twirling his tail and grunting for his supper.

4/5/45 – "We have a new member of our tent, D-2, an interloper, as it were. Said interloper is a motor which is used to charge batteries at the Motor Pool. It stands just outside our tent, to the back. This motor runs, runs, runs, runs, runs, monotonous, monotonous, monotonous, nerve-racking, maddening, over-the-hill-to-the-nuthouse-driving-me. The noise is not deafening, but it is the most annoying maddening thing I have ever had to contend with. It's literally driving me ga-ga – but I suppose I shall get used to it in time."

4/11/45 – "There are a lot of gripes I would like to get off my chest but can't because censorship forbids them.

"The 13th enlisted men and the 13th officers met in a best-two-out-of-three series to determine the basketball champion of the 403rd League. The EM won both games, 55-48 in an overtime game and a narrow 31-30 decision.

"I have seen three movies. The latest in the Dr. Gillespie series 'Between Two Women,' is pretty awful despite the best effort of Ingrid Bergman. 'Wilson' is pretty bad, too. [Also saw...] 'Experiment Perilous.'

4/23/45 – "Last night I saw a very fine picture, 'National Velvet.'

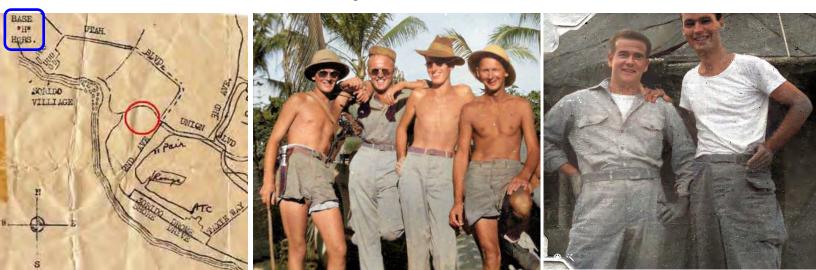

"There has been a change in the pariahs that inhabit tent D-2. Bob Leone got fed up with this squadron, asked for a transfer, and got it. Ten days ago, he left to join another outfit in the 403rd Group, and Abramowitz moved in. Irv is quite an addition to our 'Character's Club' or 'Belly Acres' as is its officially adopted name.

4/24/45 – "After nearly two weeks of blessed golden silence, the motor pool's batterycharging motor, which reposes just adjacent to the rear of our tent, is once more in full cry.

"I don't think I have ever told you about the Monday night concerts which I regularly attend over at Base "H." Base "H" is island headquarters [located where shown below left outlined in blue, northwest of the 13th TCS camp which was at the red circle]. Gene Bacon and I discovered these concerts. Pooblo [Reberry] has a great love of classical music and he goes every time he is not away on flight. In addition, Irv, Whitey [Carlson], Goessl, and Charlie Storms usually make it quite a crowd nowadays. Those Monday night concerts are now a regular feature of my weekly regimen. They are sort of a musical ivory tower in which to seek refuge.

5/1/45 – There is a rumor running around to the effect that I am to be transferred out of the outfit and into Group Headquarters. I shall hate to leave the congenial confines of tent D-2, with Pooblo, John, Irv, Whitey and honorary member Gene Bacon, we have a most congenial group."

Below center are tentmates Reberry ("Pooblo"), Carlson ("Whitey"), Evans, and Waker, before Abramowitz moved in. Below right are Goessl and Storms who attended the concerts.

1945: Notepad and Roster from McDonough, Radio Operator, 12/7/44-9/22/45 c. Summary

McDonough had a notepad in which he wrote:

- radio procedures such as above left,
- his mission legs, such as above right,
- code names for bases such as at right, and
- addresses of 33 friends and relatives, including the 13th TCS's Gornbein and Allen Thompson.

McDonough's list of flights with the 13th TCS is reproduced on the next page. The flight list from the May 2020 newsletter, which came from the morning reports, had names of crew members for some flights and I added these. As also summarized at right, he:

· Had one mission back to Guadalcanal

DULAGEMALDANG

- Landed in 1945 at 1944's New Guinea fields, including Wakde (3/28, 8/3) and Middleburg.
- On Mindanao, landed 17 of 29 days there at Zamboan days after secured. Appears to have flown medevac f Tanauan 4/10-12, and to Malabang 5/2-3.
- 5/6 he flew on a drop mission from Malabang (see
- 7/27 he flew on a drop mission from Valencia.
- 7/26-28 landed at Del Monte, the pineapple farm
- Landed at many other Southern Philippines islands air
- 7/26 wrote (top right) "para troops" from Bacolod, the dropping paratroopers.
- 9/4 flew from Ie Shima airfield on Okinawa to Kanoy Japan, from 17:15 to 22:25, but, as described on the b not land due to darkness and no lights, and returned to
- From 2/23 to 6/12, flew on 55 of the 110 days, exactly
- Flew local 6/12-7/24, perhaps transitioning and waitin
- From 7/24 to 9/11 flew 26 of 50 days, 52%. Missions
- Made 212 flights on 84 days (2.5 flts/d) and logged a

1215-1614

McDonough flew a high number of missions, to a high numb

September 10, 1945, Roster

McDonough also had a roster from September 10, 1945. I attached it to this newsletter, but the Optical Character Recognition was not perfect, and so you might not find your relative by using the "Find" function. This was 8 days after Japan surrendered September 2, 1945. It was at Dulag, Leyte. It was after 72 of the 1942 ground crews left September 4. The roster lists 310 officers and enlisted men. I knew who was present from the morning reports, but this provided:

- Roles for all of the September 10, 1945, members.
- Ranks as of 9/10/45, and 28% (88 of the 310) had been promoted since the May 1945 roster.
- Serial numbers for 10 men which were slightly different from what I had.
- New roles for 14 glider pilots who joined 8/7/45 9 who were flight officers became ground officers, 5 who were enlisted went to various functions, and of these 2 went on detached service to the 25th Liaison Squadron.
- New roles for 13 glider mechanics who joined 8/7/45 7 went to Engineering, 3 to Utilities, and 3 to DS with the 25th Liaison Squadron.
- The organizational grouping of 8 "flights" A to H. These had a total of 33 pilots, 35 copilots, 19 navigators, 33 Aeronautical Engineers, and 30 Radio Operator Mechanics, equal to an average four flight crews per "flight." Officers and enlisted were on separate lists.
- Co-pilots were labelled as such, as shown below.

2. Conclusions

A BIG THANK YOU to Matt Rhodes for telling us about the National Archives "award cards." Also, a big thank you to Evans' daughter-in-law, Carrie, for letting me visit her and photograph the letters I missed in 2017. And thank you to McDonough's daughter Kathy, and her sister, for sharing his notepad with all the mission leg times, which also help relatives of others on the missions, and for sharing the first-time-ever-seen September 1945 roster.

With best wishes, Seth
